## Section 1 - Product and Company Identification

|                                                                                                                                             |
|---------------------------------------------------------------------------------------------------------------------------------------------|
| Product name : p-Hydroxybenzoic acid                                                                                                        |
| Other names : --                                                                                                                            |
| Product use : Use for organic compound and fine chemical industry production, as preservative, disinfectant, dye, organic compound industry |
| Supplier's name : San Fu Chemical Co., Ltd.                                                                                                 |
| Supplier's address : 340 Hsiao Hsin Li, Shan-Hua District, Tainan City, Taiwan, R.O.C.                                                      |
| Supplier's phone : 886-6-5837608      Emergency phone : 886-6-5837608                                                                       |
| FAX. : 886-6-5839498                                                                                                                        |

## Section 2 - Hazards Identification

|                                                                                           |
|-------------------------------------------------------------------------------------------|
| Classification :                                                                          |
| 1. Acute Toxicity      Category 5                                                         |
| 2. Skin Corrosion/Irritation      Category 3                                              |
| 3. Serious Eye Damage/Eye Irritation      Category 2A                                     |
| The Most Important Hazards and effect                                                     |
| Label element : Hazard symbol : Exclamation Mark                                          |
|        |
| Signal word : Warning                                                                     |
| Hazard statement :                                                                        |
| 1. Harmful if swallowed                                                                   |
| 2. May cause moderate skin irritation                                                     |
| 3. May cause eye irritation                                                               |
| Precautionary statement :                                                                 |
| 1. No eating or drinking in the working area.                                             |
| 2. Avoid contact with eyes and skin.                                                      |
| 3. In case of contact, immediately flush with plenty of water, and get medical attention. |
| 4. If swallowed, seek medical advice immediately.                                         |
| Others Hazard : --                                                                        |

## Section 3 - Composition/Information On Ingredients

Pure Substance :

|                                                                                              |
|----------------------------------------------------------------------------------------------|
| Chemical name : p-Hydroxybenzoic acid                                                        |
| Synonyms : 4-Carboxyphenol; Benzoic acid, 4-hydroxy; 4-Hydroxybenzoic acid; p-Salicylic acid |
| CAS No. : 99-96-7                                                                            |
| Ingredient contributing to the hazard(%) : 99%                                               |

## Section 4 - First Aid Measures

The First-aid Information :

- Inhalation : Move to fresh air. If not feeling well, get medical attention.
- Skin Contact : Flush skin with plenty of water for at least 15 minutes. Remove contaminated clothing. If not feeling well, get medical attention.
- Eye Contact : Immediately flush eyes with plenty of water for at least 15 minutes, lifting lower and upper eyelids occasionally. If not feeling well, get medical attention.
- Ingestion :
  1. Do NOT induce vomiting unless directed to do so by medical personnel
  2. Never give anything by mouth to an unconscious person.
  3. If not feeling well, get medical attention.

The Most Important Symptoms and Hazardous Effects : --

Protection of First-aiders : --

Notes to a Physician : --

## Section 5 - Fire Fighting Measures

Extinguishing Media : Water, CO<sub>2</sub> , foam, powder

Specific Hazards when Fire-fight : --

Specific Fire-fighting Procedure : --

Specific Protection of Firefighters : Do not stay in dangerous zone without suitable chemical protection clothing and self-contained breathing apparatus.

## Section 6 - Accidental Release Measures

Personal Precautions : Avoid contact. Avoid generation of dusts. Do not inhale dusts.

Environmental Precautions : --

Methods for Cleaning up :

1. Sweep the spills in the dry condition and discharge it.
2. Clean up the affected area. Avoid generation of dusts.

## Section 7 - Handling and Storage

Handling :

1. Use in well-ventilated area only.
2. Avoid contact with eyes, skin and clothing.
3. Do not ingest or inhale.

Storage : Keep container in a cool, dry area.

## Section 8 - Exposure Controls & Personal Protection

Engineering measures : Use local exhaust ventilation to keep airborne levels below recommended exposure limits.

## Section 9 - Physical & Chemical Properties

|                                                 |                                            |
|-------------------------------------------------|--------------------------------------------|
| Appearance : crystalline powder                 | Odor : odorless                            |
| Color : white or yellowish                      | Melting Point: 214~217 °C                  |
| pH value : 3.3(20°C, at 1 g/l H <sub>2</sub> O) | Boiling point/boiling range : --           |
| Flammability: --                                | Flash point : 199 °C                       |
| Decomposition temp : --                         | Test method (Opened or closed cup) : --    |
| Auto ignition temp : --                         | Explosion properties : --                  |
| Vapor pressure : --                             | Vapor density : --                         |
| Density : --                                    | Solubility : 8 g/l H <sub>2</sub> O (20°C) |
| log Kow : --                                    | Evaporation Rate : --                      |

## Section 10 - Stability & Reactivity Data

|                                                             |
|-------------------------------------------------------------|
| Stability : stable under normal temperatures and pressures  |
| Possible hazardous reactions under specific conditions : -- |
| Conditions to avoid : excess heat, incompatible materials   |
| Materials to avoid : strong oxidants                        |
| Hazardous decomposition products : CO, CO <sub>2</sub>      |

## Section 11 - Toxicological Information

|                                                                              |
|------------------------------------------------------------------------------|
| Route of exposure : Inhalation 、 Skin 、 Eye 、 Ingestion                      |
| Symptoms : irritation, nausea, stomach pain, rapid breathing, sweating, coma |
| Immediate Toxicity :                                                         |
